

Noomeo and Keonys sign new Distribution Agreement

Keonys, 1st European Distributor and Integrator of PLM solutions of Dassault Systèmes distribues the latest technology of 3D scanning from Noomeo in France, Belgium, Netherland and Switzerland.

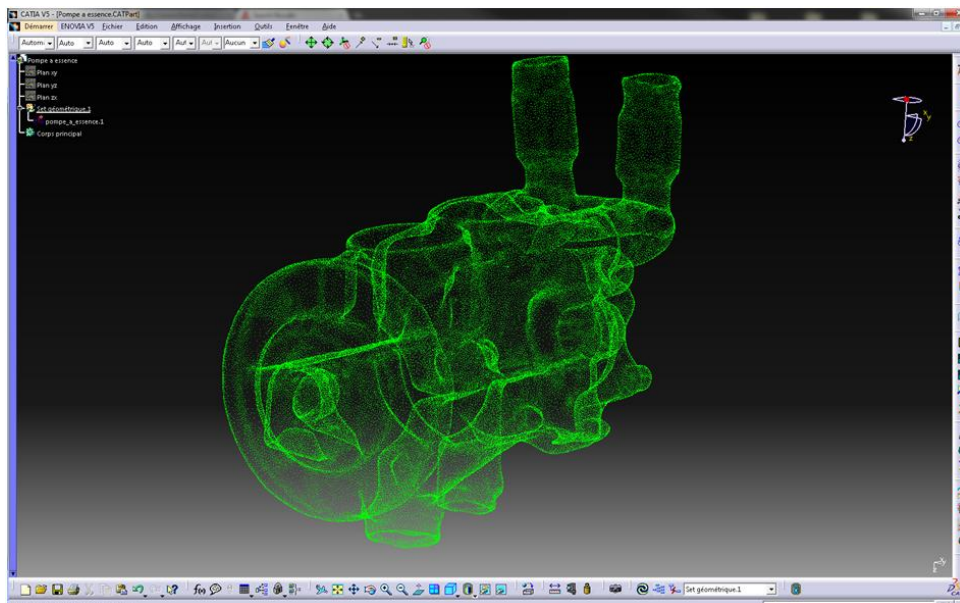

Toulouse and Saint-Cloud, March 15th, 2010

Noomeo and Keonys announce today the signature of a partnership agreement whereby Keonys will distribute the scanning technology OptiNum developed by Noomeo. With this distribution agreement coupled with its expertise, Keonys will offer its many customers and prospects a complete and very innovative scanning solution for reverse engineering and 3D modeling. The technology developed by Noomeo can run on a laptop in a mobile situation. It analyzes the images captured by the device and creates on the fly points clouds which can be converted into real 3D objects, directly usable in CATIA from Dassault Systèmes.

"In line with the partnership signed with Dassault Systèmes in 2009, Noomeo strengthens its presence alongside the #1 worldwide CAD-CAM vendors by partnering with Keonys, the first distributor of the editor in Europe", said Vincent Lemonde President of Noomeo, "We are proud to benefit from the expertise of Keonys, essential condition for the adoption of our solutions in the market."

"The 3D scanning of real objects provides a vast array of applications for engineers who can better design their products according to their usages and speed up innovation. We are confident that the technology of reverse engineering provided by OptiNum from Noomeo, coupled with our expertise in this area, will bring added value to our customers. " says Nicolas Guilbaud, Director Marketing & Business Development Keonys.

About Noomeo

Noomeo is an innovative company founded in 2007 which identified, studied and developed a 3D scanning solution to meet the most important needs for its customers, mainly in terms of portability and ease of use. The primary mission of Noomeo is becoming a major player in the design and manufacturing of simple and affordable scanning solutions for 3D modeling. Doing this, Noomeo aims is to make "3D Made Easy" available to everyone.

Noomeo, OptiNum and NumiSoft are trademarks owned by the company Noomeo in France and/or other countries. For more informations www.noomeo.eu

About Keonys

Keonys is the most important European Value Added Reseller (VAR) of Dassault Systèmes' Product Lifecycle Management (PLM) solutions. Expert in PLM technologies, Keonys brings innovation through services and methodologies to more than 1.000 customers of any size in many industries and support industrial processes from conception to maintenance to recycling (Architecture, Engineering and Construction, Automotive and Transportation, Aerospace and Defense, Consumer Packaged Goods, Energy, High-Tech, Industrial Equipment, Life Sciences, Shipbuilding)

CATIA, DELMIA, ENOVIA, SIMULIA, and 3DVIA are registered trademarks of Dassault Systèmes or its subsidiaries in the US and/or other countries. www.keonys.com
